

THE PIOCHE WEEKLY RECORD.

VOL. XLVII.

PIOCHE, NEVADA, THURSDAY, JULY 22, 1897

NO. 41.

The new tariff bill provides for the heaviest duty ever known on imported watch movements which is quite complimentary to Americans. The high duty was voted because the Swiss and other foreign makers, beaten in their own field, recognized the great benefit of American watch machinery, put in plants and are now turning out watch movements which are sent to this country. In the smallest letters possible they put the word "Swiss" in a hidden place, and on the box in large letters they print the name of some well known American manufacturer. Across the face of the watch is a trade mark monogram of the American firm, but the cross of the A is omitted so that exact imitation cannot be proved in the courts and these watches are sold to the injury of American manufacturers.

William J. Bryan's tour through Oregon has been a triumphal march. Farmers traveled over one hundred miles in wagons to see and hear the great statesman. He was received with an ovation in every town through which he traveled and was scarcely given time to eat and sleep. Whether he shall be elected President or not he is the idol of the masses of the people, who look upon him as their deliverer from the clutches of the trust.

The Wadsworth Dispatch says the past week has been a very busy one for everyone in Wadsworth. Every railroad man has been rushed, the crews running hard, the shops working extra time, and every business man has his hands full, giving employment to every man, woman and child that wanted it.

Most of the papers throughout the State are publishing the new mining law in full or in part. It is not printed in pamphlet form and outside the statutes, the papers furnish the only means by which prospectors and other can become familiar with it.

Railroad talk is conflicting. Though the papers here several roads in this vicinity and western Utah, all but built, the opinion of a gentleman, who is thought to be in position to know, is that there is not the remotest chance for some time of the construction of a road this way.

It is said that the fact that Daniel Webster was opposed to the annexation of the Hawaiian Islands counts but little. A great many things have occurred since the death of Daniel, including numerous changes in the minds of our statesmen.

With silver quoted at sixty cents an ounce the value of the metal in a standard silver dollar is worth about 46 cents. When the Bland law was enacted in February 1878 the bullion value of the silver dollar was 92 cents.

Secretary Sherman says the Ohio Republicans will not tolerate bosses. Perhaps not, but they appear to stand one boss without any vast amount of kicking.

Those Congressmen who are so anxious to beat Tom Reed's game and get their names in the Congressional Record will have to die to become successful.

The action of the Senate Committee on election emphasizes the fact that this is an off year for the Corbett family.

JUBILEE NOTES.

Hon. William J. Bryan and wife will take part in the Jubilee festivities.

A pleasing feature of the Children's Day parade will be the hauling of Brigham Young's historic plains wagon by a number of his grandchildren.

The demand for the Pioneer Jubilee Souvenir Cup is unprecedented in the history of the local trade.

The Hall of Relics (a modern Parthenon) contains pioneer relics which will prove of absorbing interest to all oldtimers. A leading firm of jewelers purchased the entire consignment of 5000 from the Commission and are retailing them for \$1 each.

Tribunes to accommodate 10,000 people are now being constructed by the Commission and enterprising speculators will add several thousand more seats at advantageous points along the route of the parades.

In the Sick Room.

For cramps or pain in the stomach try a few drops of essence of camphor.

For a nervous headache a cup of moderately strong tea in which two or three slices of lemon have been infused.

For tired feet put a handful of common salt into four quarts of hot water. Place the feet in the water while it is hot as can be borne. Then rub the feet dry with a rough towel.

For making a clear complexion stir two teaspoonfuls of flowers of sulphur into half a pint of new milk. Let it stand awhile, and rub the face over with it a short time before washing.

For binding up cuts and wounds always use linen, not cotton, as the fibers of the cotton are flat and apt to irritate a sore place, while those of linen are perfectly rounded.

For baldness try the following tonic: Liquid ammonia, almond oil and chloroform, each one part; alcohol, five parts; oil of lemons, one dram. Apply freely and often after first thoroughly brushing the hair. This is a mild stimulant and perfectly safe.

For a nail-cleaning liquid use the following lotion: Tartaric acid, one dram; tincture of myrrh, one dram; eau de Cologne, two drams; distilled water, three ounces. Dissolve the acid in the water, mix the tincture of myrrh and eau de Cologne and add to the acid solution. Dip the nails in this solution, wipe and polish with a camellia pad.

An Easy Washing Method.

While breakfast is cooking, or after, separate the white clothes from the colored; placing all the white clothes, cleanest on top, in a tub and cover with cold water. Before sitting down to breakfast cut up half a bar of soap in a small tin pail or crock—I keep one for that purpose—add one quart of water or less will do, and place over the fire, when hot add four tablespoonfuls of kerosene, let come to a boil and set off from fire.

Place the washboiler on the stove with sufficient water to scald clothes, it can be heating while you are at breakfast. When ready to commence washing, add about half, or more, of your boiled soap, to the water in boiler, stirring well, then wring out your cleanest white clothes first, and put in boiler to scald, let them scald for twenty or thirty minutes.

Rub the dirtiest spots with soap before putting in boiler.

When scalded, draw out of boiler into clear, warm water, turn all pieces wrong side out, suds well and put in rinse water.

If your boiler will not hold all at first add more boiled soap to each boiler of clothes.

No rubbing is necessary except dirtiest pieces. Your clothes will be white as snow, with no smell of oil about them. Wash colored clothes in suds, adding hot water from boiler as needed, wring out into warm suds and they are ready for rinse and the line.

This receipt is for soft water, we use soft cistern water.

ON DECK AGAIN.

In a recent Sunday edition of one of San Francisco's leading dailies there appears a thrilling tale of three men, a boat, an anchor and a monstrous whale. It seems the men went fishing and a whale running foul of their anchor, started across the Pacific with them in tow. The public has been patiently awaiting a story of this character for quite a while. It now is the middle of July, summer will soon be ended and yet the people have not been started with the story of the periodically appearing sea serpent. We are delighted that at least one paper has shown energy enough not only to revive such a tale, but to hash it up in a new style.

The Christian Endeavorer's found things in the far west different in many respects to what they anticipated. A San Francisco paper speaking of the matter says:

"Utah and Nevada have given the Christian Endeavorers the best of evidence that the far West is neither wild nor woolly. Even the Mormons made the new-comers welcome at Salt Lake, Ogden and other points, turning out to feed and entertain them with a hospitality which was as refined as it was generous. In Nevada it was soon impressed upon the strangers that the population was not wholly made up of prize-ringing devotees, for the Endeavorers were greeted by strong religious organizations and made in every way to feel that the Sagebrush State had an interest in their personal welfare and in the success of their cause."

Delicious Brown Fricassee Chicken.

Brown fricassee is a very tasty way of serving a fowl. Singe, draw and disjoint; put into a good size saucepan two tablespoonfuls of butter when hot drop in the pieces of chicken; allow them to brown gradually, taking great care the butter does not burn. As soon as the pieces are browned draw them to one side as the saucepan, and add to the fat two tablespoonfuls of flour; mix and add one pint of stock or water. Stir constantly until it begins to boil, moving the chicken around in the sauce. Add a slice of onion, a bay leaf, a teaspoonful of salt and a quarter of a teaspoonful of pepper. Cover the saucepan, push it to the back part of the stove, where the chicken may simmer slowly for an hour. When done, dish the rough pieces in the center, crossing the legs on the front of the platter; place the wings and the dark meat side; the back and breast on top. Dish your chicken each time in the same manner, so that the carver may know exactly where he will find the dark and the light meat. Take the sauce from the fire, add to it the yolk of one egg, beaten with two tablespoonfuls of cream; strain this over the chicken. Garnish the dish with crescents of fried bread, dust over a little finely-chopped parsley, and send to the table.

Ice on beer at Thompson's.

In a Glasgow car was an aged Irishman, who held a pipe in his mouth. The conductor told him he could not smoke but he paid no heed. Presently the guard came into the car and said, with a show of irritation: "Didn't I tell you you couldn't smoke in this car?" "Well, O'm not smoking," "You've got a pipe in your mouth." "So O' have me feet in me boots," replied Pat, "but O'm not walking."—Scottish Nights.

It is estimated that the amount of money left in the state by the Christian Endeavor excursionists will reach \$20,000. This was for meals and lunch goods at Elko, Battle Mountain, Winnemucca, Humboldt House and Wadsworth had the best of the trade.

Jesse Knight of Tintie has presented the commission with a 720-pound piece of ore from the Uncle Sam mine, which has an assay value of 80 per cent lead and 100 ounces of silver to the ton, which was placed in the Hall of Relics at Salt Lake City.

Greater New York has a population of 3,500,000; the bonded debt is \$216,000,000; the assessed valuation, \$1,307,091,000; the city has 114 national and State banks with a capital of \$7,000,000.

Senators White and Stewart had a hot time in the Senate on the 15th. Over San Pedro. White accused Stewart of representing the Southern Pacific railroad and Stewart resented it.

Queen Victoria on Saturday received Senator Wilcott, ex-Vice President Stevenson and General Payne, members of the U.S. biennial commission, at Windsor castle.

A TERRIER'S REVENGE.

Summoned His Faithful Friend and Obtained Satisfaction. This dog story was told by a lady who vouches for its accuracy. Remarkable as it is, she affirms that it is the truth, the whole truth, and nothing but the truth.

An up-the-state family had two dogs, a bulldog and a black-and-tan, between which there existed every evidence of deep friendship. The family went into the country one summer some 10 miles from home. They took the black-and-tan with them, but left his companion at home. They had not been established in their summer quarters more than a few days before the small dog had managed to pick a quarrel with the neighbor's bulldog, in which the black-and-tan got much the worse of the argument—so much so that when he disappeared after the battle his owners were much worried. They searched high and low, but no trace of that small dog could be found. The next morning there were seen coming up the road, side by side, the black-and-tan and his faithful companion, the bulldog from home. The two marched straight past the hotel, where the family were staying, and halted in front of the home of the black-and-tan's enemy. In some unknown manner the country bulldog was summoned and immediately his city contemporary fell upon him. The struggle was severe and prolonged, but the issue was never in doubt. The country bulldog was completely conquered and retired in as good order as possible under the circumstances. The victor, once his task completed, wheeled about, and without a stop retraced the 10 miles to home. The black-and-tan crawled into the hotel with every indication of complete satisfaction on his diminutive countenance.—N. Y. Mail and Express.

Panaca Co-op.

Dealers in General Merchandise Clothing, Boots and Shoes, Provisions, Groceries, Grain and Hay. A free corral with a good cookhouse.

C. P. RONNOW, Mgr. PANACA NEVADA.
